Overall Record

Men's Team

36 matches won against 22 matches lost for a winning percentage of 62.1%, a great start to the club season and continued improvement from the start of the OUA season. Better every time out and again showing the depth of our men's team.

Women's Team

20 matches against 20 losses for a winning percentage of 50% exactly – a vast improvement over our OUA record, but still needing consistent shot-making and improved fitness if we are to challenge the other OUA teams next season. But again a huge improvement over the OUA record for the women's roster.
