Re-buys and Add-ons are optional.

One (1) optional rebuy per player available through the 1st break.

One (1) optional add-on per remaining player available during the 1st break.

Buy-in = \$20.00 buys 2,000 in chips.

Re-buys = \$20.00 buys 2,000 more chips.

Add-ons = \$10.00 buys 1,000 more chips.

One (1) bounty of \$20 is paid to whoever eliminates the previous champion.

Total prize pool (buy-ins + re-buys + add-ons - \$20) goes to prizes distributed as below.

Tables:

Initially have 2 tables (max per table = 8-11, depending on starting number). Each time a player is eliminated, the remaining players at that table are responsible to immediately inform the tournament manager. This ensures that all tables have as close to equal numbers of players as possible. If one table has too many, play will pause until hands at the largest and smallest tables are complete. Then a player will be chosen at random to move. Tables will be combined during a brief pause when number of players becomes 8-10.

Colour-ups:

Break 1: 5's exchanged for 25's, 100's.Break 2: 25's exchanged for 100's, 500's.Break 3: 100's exchanged for 500's, 1,000's.

Odd chips will be "raced off" using the standard card method.

Breaks may be shortened if remaining players agree.

Re-buys and Add-ons are optional.

One (1) optional rebuy per player available through the 1st break.

One (1) optional add-on per remaining player available during the 1st break.

Buy-in = \$20.00 buys 2,000 in chips.

Re-buys = \$20.00 buys 2,000 more chips.

Add-ons = \$10.00 buys 1,000 more chips.

One (1) bounty of \$20 is paid to whoever eliminates the previous champion.

Total prize pool (buy-ins + re-buys + add-ons - \$20) goes to prizes distributed as below.

Tables:

Initially have 2 tables (max per table = 8-11, depending on starting number). Each time a player is eliminated, the remaining players at that table are responsible to immediately inform the tournament manager. This ensures that all tables have as close to equal numbers of players as possible. If one table has too many, play will pause until hands at the largest and smallest tables are complete. Then a player will be chosen at random to move. Tables will be combined during a brief pause when number of players becomes 8-10.
