📢 Microsoft Office Viewers

Office Online File Converters and Viewers -
http://office.microsoft.com/en-us/assistance/HA010449811033.aspx

With the help of converters and viewers from Microsoft Office Online, you can share your Microsoft Office files with people who have different versions of Office programs, or even with people who don't have Office installed.

Converters allow you to open files created by people using different versions of your Office programs.

Viewers provide a means for people who don't have Office programs to see your work. You can provide them with the appropriate viewer along with your Office files.
